STREET wear demands something of the softness and pliability of the moccasin—something of the resistance to pavement-grinding wear of the heaviest boot. To meet these conditions costly hides must be used and extreme care in manufacture. Only with such leathers and such care can a shoe be made that will stand up on city pavements—trim, resilient and shapely.

It is significant that the seventy-year old reputation of Edwin Clapp shoes has been built through their satisfaction to metropolitan purchasers who give shoes the hardest wear and who know the true economy of the higher priced footwear.

Are thinking of the coming generations'

What chance have coming generations to grow up to be healthy men and women if you give them food you know nothing about?

If you put unknown foods into their little stomachs, don't you think you are giving them a bad start in life? About all you can do for your children is to give them a good start. Don't you think it is a good practice, therefore, to buy your foods on the basis of quality?

Thompson's prices are always low, quality considered. There's never anything excessive or unreasonable about them. But you know mighty well that every article of food you buy at Thompson's is the purest food produced in the world. Doesn't that mean everything to you and your family? I think so.

By the way: Have you tried Thompson's Sifted Early June Peas? A No. 2 size can (enough for 4 portions) costs only 19 cents. yet we will match them with the finest peas you ever ate. Get a can today-try them-and you'll know what we mean when we talk about Thompson's quality.

If "Scrutator" knows anything at all. at all about railroad matters he must be aware of the fact that for the last two years the only "raise" the clerks have received from the R. R. labor board is a "raise" downwards, viz., July 1, 1921, a cut of 48 cents per day, and on July 1, 1922, another cut of 24 cents per day. It is true that the R. R. labor board, on March 1, 1923, allowed an increase of 2 cepts per hour for freight handlers, com-mon laborers, etc., but specifically ex-cluded the clerks from participating in this "generous" allowance, stating that "it does not consider it just or reasonable to grant any increase in the of pay to the clerks."

Furnishing a Great Bank

Combining three great institutions—the Illinois Trust and Savings Bank, the Merchants Loan and Trust Company, and the Corn Exchange National Bank - constitutes the largest financial merger of recent years outside of New York. And so the opening last Monday was a matter of civic as well as of business interest.

There is much interest, too, in the decoration of the banking rooms. All of the Furniture and Draperies were supplied by Marshall Field and Company. The Furniture, in brown mahogany, is of Louis XVI design and accords perfectly with the classic architecture of the building."

It is soaring higher and higher in public regard.

It is marching swiftly and surely on toward complete domination of its own market.

Motor car buyers in general are becoming conscious of these facts.

They see, in the good Maxwell, more than the public has been accustomed to getting for its money. They see greater beauty; and they see the evidences of higher-grade manufacturing and higher-grade results.

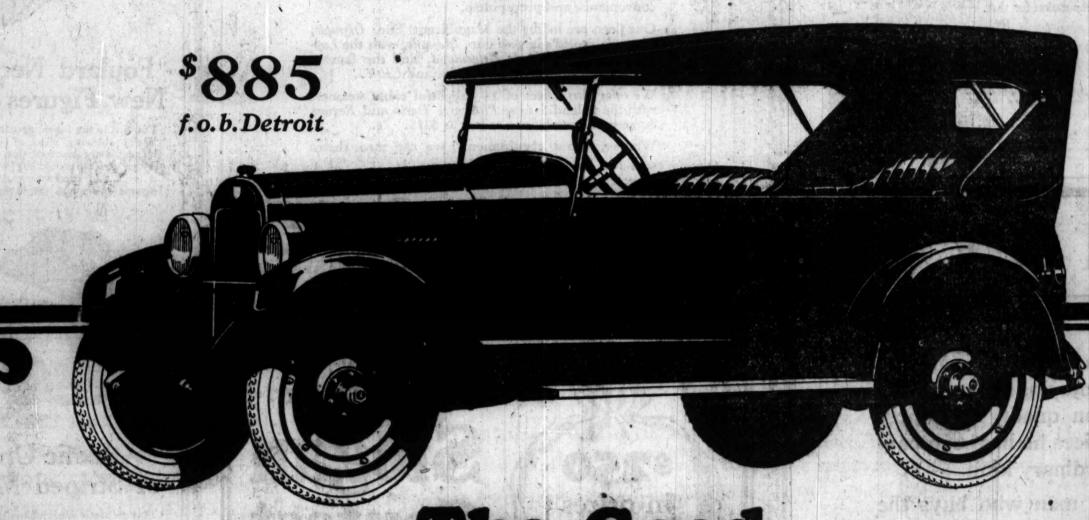

In this, Chicago is joining the rest of the country in awarding to the good Maxwell one of the few really great successes recorded in motor car history.

Here in Chicago, is an organization worthy of the good Maxwell in every way, and keenly conscious of the value and the good name of the product it represents.

Let us send you a set of piano floor patterns

Welcome. In discussions of the welcome it is urgent that you have a set. Floor patterns answer many questions with reference to the arrangement of the furniture in your room. You can tell at once whether or not the room will hold your piano. It saves later disappointment and much shifting and moving of the piano when you are settled in your new home. Decide now where to place the instrument to advantage.

How to Know

Send for this set of floor patterns. Simply lay the proper one [either upright or grand form] on the floor. It shows at once what space is needed. You obtain a clear idea how the piano will look. The pattern is

invaluable in the arrangement of furniture. The piano dominates a room, but this need not be too noticeable. Proper harmony can be obtained. A little thought and the use of a pattern will bring about a delightful setting in a room.

What Are Floor Patterns?

Women familiar with dressmaking patterns will understand at once how handy a piano floor pattern can be. Life size with facsimile keyboard in natural colors, the Lyon & Healy patented floor patterns outline the measurement of both grand and upright pianos. They are immensely practicable. They may be used over and over again. No charge or obligation is made for them. We shall be happy to send you a set. Clip and mail the coupon.

Simply call us up and save yourself all moving problems. Let us take your present piano and give you a credit check for it. This is as good as cash. Any time you wish you may apply it on the purchase of another piano. Terms, too, arranged.

An Attractive Plan

Hundreds of Chicagoans make use of it each year. It saves them a great deal of bother. You save drayage charges and possible damage to your present instrument.

Full Valile

When you are settled in your new home, you may come in and selectanother instrument. The voucher is honored at full value. Our valuation on your instrument taken in exchange is unusually liberal. Thus you obtain a new piano for only a comparatively small outlay.

Spring Models Now On Display

Here there is a model for every home. Values are unequalled. Each is notable for sound, durable construction and beautiful tone. The cases are styled to conform with the modern tendencies in home decoration. There is a choice of fine cabinet woods. You may see and compare the products of some of the world's most famous factories. They contain the latest improvements. In grands we offer such beautiful pianos as

Steinways, Lyon & Healys and Brambachs. The display of uprights and players is very interesting. Included are Steinways, Lyon & Healys, Washburns, Aeolians, Strouds, and Stecks. Uprights from \$350; players from \$590; grands from \$550.

Especially do we call attention to the unique display of Duo-Art Reproducing Pianos. Informal demonstrations of this instrument are given each afternoon. You are invited.

Nothing Down

When you select your instrument you need pay no money down save for a small cartage fee. The instrument itself may be paid for in 28 monthly installments [Steinways, 18 months]. Old musical instruments taken in exchange at liberal valuations.

"Can a Wrist Watch Keep Good Time?"

ONE of the pet traditions about women is that no woman ever takes care of her wrist watch. She may smile this off, along with a lot of other mistaken notions about her.

But always in her mind is the question whether any wrist watch can keep time.

It's all very natural. A number of women own cheap watches dressed up "to get the woman trade." And others are carrying costly watches, chosen mainly as pieces of jewelry.

The Elgin Watch-

makers have answered this question in the only practical way-by making wrist watches that do keep time. The Elgin wrist watches for women are professionally made watches, like Elgin time-keepers

THE QUICKEST OATS KNOWN

There is now a Quick Quaker Oats—the quickest cooking oats in the world. It cooks in 3 to 5 minutes as well as an hour would cook it.

The same super-flavor that made Quaker Oats world-famous. Flaked from the finest grains only. But the oats in this style are cut before flaking. They are rolled very thin and partly cooked. So the flakes are smaller and thinner-that is all. And those small, thin flakes cook quickly.

Your grocer has both styles— Quick Quaker and regular. And both have that matchless flavor.

Finest suits of Scotch tweeds

The value sensation of the last days of our great removal sale

YOU never saw so much value for so little money. All then who appreciate really fine clothes—who are in the habit of paying big prices to exclusive tailors—should see our windows. A look will convince you.

Ordered in great quantities, they poured in on us by hundreds just before time for us to move. The only way to move our immense holdings in the few remaining days is to make this unheard-of price eduction.

They're the best-looking, most durable suits for business and all-around wear.

Originally hand woven n the thatched cottages of Scotland, they became known as "the poor man's suit." Then the nobility of England discovered their sturdy beauty and took them up.

The finer Scotch mills learned to weave them in quantity; Scotch weavers brought the secret to America. Tweeds became very popular here.

> Prices on all suits, overcoats, top coats-everything in the housedrastically cut for these final days.

No motorist so quickly appreciates Rolls-Royce qualities as the man who selects it for his personal car-and himself drives it. . . . From such an owneralready the possessor of several cars—the following letter was received: "... I consider the Rolls-Royce the best riding, the best handling and sweetest running car I ever owned. Though I have not had a chauffeur for this particular car, its up-keep has been a simple matter. It is economical both as to gasoline consumption and wear on tires, extremely flexible and so easy to steer that even the longest trip requires no apparent effort...." But whether or not he drives his car, the owner of a Rolls-Royce benefits from all of its advantages. In the fact that these advantages are permanent, during even twenty years of constant use, is demonstrated the perfection of the Rolls-Royce. WHAT Is Double Gum-Dipped?

Car-owners are naturally interested in just what the double gum-dipping pro-cess means in tire-building. For its importance to mileage performance has attracted attention everywhere.

This improved process in cord tire construction is rarely found in other than Firestone Cords. Extremely difficult to carry out, most tire manufacturers consider its expense prohibitive.

Yet Firestone has now so perfected and simplified gum-dipping, that not-withstanding their many advantages, Firestone Cords cost no more.

By this process the cord fabric is dipped in a heavy solution of liquid gum or rubber. When thoroughly saturated it is removed and allowed to dry. Thin coats of sheeted rubber are then pressed

process called "calendering." Thus there is double assurance that each separate cord is completely submerged in live, springy rubber.

The deterioration of tires caused by internal friction is well known by experienced car owners. Excessive heat is generated that literally burns away many miles of service.

InFirestoneCords, internal wear is practically eliminated. Gum-Dipping makes them stronger and more resilient: It is largely responsible for the buoyance and easy-riding Firestone users experience.

There is a good dealer near you who sells and services Firestone Cords. Go to him this month if you are looking for the way to reduce your tire costs.

When Hearts Command By ELIZABETH YORK MILLER

an Riviera. They plan an extravagant vacation of two months after a lifetime of frugal living. Mrs. Carnay acknowledges by a note flowers sent to their rooms by one Her

INSTALLMENT II. DR. ARDEYNE.

Lunch came up, after which Mrs. Carnay had a great many things to do. She persuaded Alice to change into one of the new white frecks, and made out a little shopping list, some things to be purchased at the chemist's, a pound of chocolates, and a copy of The Paris Daily Mail. Also Alice was to buy one of those fascinating Riviera rush baskets—a blue one-without which no woman visitor feels quite complete, "so useful, darling, for small parcels." Alice wanted to stay and help her mother unpack so that they could go out together, but she was an obedient child and yielded without much protest

"I shall be much happier taking my time pottering about," Mrs. Carnay said, "and I do want that cold cream and eau de Cologne. So run along darling."

Jean Carnay's head was in the bottom of a trunk when her daughter departed, but it came up again at once, and for a little while the unpacking was suspended. In her petticoat and dressing jacket she sat down at the writing table and, choosing paper and pen, began a note, making a pretty picture in spite of her thirty-nine years and gently fading charms. Her hair, not so bright a gold as in her youth, had loosened a little and wavy tendrils stered above her ears and at the white nape of her neck. Her blue eyes had a faraway expression as she gently nibbled the penholder.

What to say to him? What an absurd man he was, anyway. The flowers ad been a genuine surprise. It was not because of Hector Gaunt that she had come to Bordighera, although it was true that a man had lured her to this romantic spot, or the rumor of a certain man. Her own past life was east resolutely behind her. For fifteen years Jean Carnay had lived only for her daughter. Before then, her husband had claimed a great deal of her tention, but after his departure from this world she had been free to devote herself exclusively to Alice. As for Hector Augustus Gaunt, he belonged to a riod so remote and so brief that at times she often forgot his existen Yet she had remembered it sufficiently to send him a post card from Florence though not at all sure he was still living at that ridiculous little farm his high up on the slopes of Monte Nero,

"Dear H. A.," she wrote, "why did you do such a thing? All the sam it was very, very kind of you. Alice found your card before I had quite sus pected who sent the flowers. We are both very well, but I am getting old. My

Here she interrupted herself and got up to have a look in the mirror ming the note: ". . . nice as it used to be, and of course there are other changes. However, one cannot expect to remain young forever.

"I last heard from Christopher Smarle about six months ago and at that ne Hugo was quite well. I do not keep in close touch with the family eedless to say that if you run into us here, make no mention of the unfor tunate business which has spoiled so many lives. I enclose a little snapshot of Alice. You might be interested to see what she looks like,

Thank you so much for the lovely flowers. Affectionately yours, The letter finished, Mrs. Carnay inclosed it in an envelope with the snap shot of Alice and sent it down to the concierge with instructions that it was to be dispatched by hand. Then she returned to her unpacking.

Perhaps even more than Alice, she reveled in this temporary taste of luxury. Alice had the compensation of youth, and her future was not yet decided. For Jean Carnay the future was already here, however much she might try to cheat herself. By years of stupid, soul starving penury one could purchase two months of life as it ought to be lived. That was all.

As she did her hair at the white flowered dressing table she played at being young again, and also wondered what there would be for dinner. Lunch had been so late, she wouldn't bother with tea. She stepped out on to the balcony. How nice and high up they were. What a comfortable lounge chair in which is sit and dream. She fetched a cushion, a rug, and a book, and settled herself. But the book was merely for appearance's sake.

Nearly twenty years ago since she had been here last, and Bordighera was changed. So many new hotels and villas had sprung up, and the surrounding

But the Old Town would be the same, and the old Villa Tatina.

Could she bring herself to take a surreptitious peep through the gates of the
limit Tatina? Almost she wished she hadn't come here. Memories are queer
hings. One imagines the past to be quite dead and done for, yet—well, she

"Mumsey, you oughtn't to sit out there. The sun's going down."
"No, of course not." Mrs. Carnay came in from her balcony dragging

rug and cushion with her. "Well?"
"I've got everything," Alice said. "Isn't the basket sweet?" "I've got everything," Alice said. "Ism't the basket sweet?"

Her mother thought that the girl herself was about the sweetest thing the desert reminds one of a windy day in Gary rather than the sand-storm it is supposed to be. Mrs. Carnay wrinkled her thoughtful brow.

"Let me see, Doctor—what was his name?"

"Philip Ardeyne. Don't you remember mumsey? Everybody was se aken with him, and he liked us so much, only he had to go back to London broat at once."

Mrs. Carnay dimpled. "He liked you very much. O, yes of course rs. Carnay dunpied. He liked you very fluch. O, yes or course I aber Dr. Ardeyne. The Archers talked of nothing else. Frightfully rich,

Good morning! Once in a while we (that is

of us) like to leave the beaten path and hie ourselves to see a wild and woolly western fillum. But when we do we expect to see a wild and wolly one, we want to be held on the edge of our seats, we want to feel our hair tingle at the roots. Don't we? We do, she answered.

If you expect this from "Brass Commandments," you'll be disappointed. As a plot it registers zero and as

There were reasons why Mrs. Carnay did not wort of like the old game of pinning to the photographer for the picture of the tail on the donkey we used to play Francis X. Men's Fashions BY A. T. GALLICO.

More Formal Dressing. NEW YORK.—[Special Correspond-nce.]—There is gradually creeping nto men's clothes an element of digwhich in the last few years has noticeably lacking among the ority of dressers. There has been rse a certain class of older men nd some younger ones—that has rays maintained this dignity of at-and not been swept into the curent of negligee clothing. But now more and more men are

opting the wing collar and bow, which is one of the characteristics more formal dressing. Add to

itie starch and you have a combina-ion which no one can say belongs a golf course. The increasing of the short coat and striped rousers, which especially in the summer time takes the place to some of the cutaway, will make the wing collar even more popular.

The illustration shows a suggestion offered in the window of a men's clothstore, another hint that men are seeking this type of dress. The bow tie is horizontally striped with small stripes and the plaited shirt also has fine horizontal stripes. The tie should Ane horizontal stripes. The tie should be, if not the same color as the striping in the shirt, at least one that harmonizes. Blues and tans are both used effectively. Another point is that the bow tie illustrated is one of those with a narrow neckband, which enables it to be tied into a small knot, the smartest fashion at present.

Mrs. G.: Your husband is wrong. Although his black oxfords may not be brogued, the fact that they have the puts them out of the running for ress oxfords, plain toe, are best.

The foregoing table is not a mere theory. Miller First Mortgage Bonds, paying up to 7% interest, offer the investor a practical means of harnessing the power of compound interest for his own benefit. Our Partial Payment Plan provides a convenient method of reinvesting odd ounts of interest as received, or on receipt of an interest payment the investor can add, out of his personal funds, the amount required to purchase a \$100 bond, thereby realizing substantially the results shown above. To anyone interested in Miller Bonds as a means of acnulating money, steadily and without risk of loss, we will gladly send our descriptive booklet, "Creating Good Investments," telling how Miller Bonds are made and safeguarded. Application will be made in due course to list this Preferred Stock on the New York Stock Exchange.

Unconditionally guaranteed as to payment of dividends by endorsement on each Stock Certificate by Public Service Corporation of New Jersey.

Thomas N. McCarter, Esq., President of Public Service Corporation of New Jersey, summarizes his letter to us in regard to this Preferred Stock as follows:

Public Service Electric Power Company will forthwith construct a modern steam electric power plant near Newark, N. J., with an initial installed capacity of 200,000 H. P. The Company has arranged for the acquisition of sufficient land to care for an ultimate capacity of 400,000 H. P. The output will be distributed to the larger cities and the most important industrial centers of northern New Jersey by Public Service Electric Company, which is one of the largest electric companies in the United States. This additional output is essential to enable Public Service Electric Company to meet the increasing demands for electricity.

Lease

The new plant of the Company will be leased to Public Service Electric Company for a term of 999 years at a net and unconditional annual rental equal to the annual interest charges on the total indebtedness of the Company and three times the annual dividend requirements of this Preferred Stock.

Purpose

The proceeds from the sale of this Preferred Stock, together with that from the sale of \$14,000,000 First Mortgage Gold Bonds and 300,000 shares of no par value Common Stock, already underwritten, will provide funds equal to the estimated cost of the new power plant, and any excess cost will be paid by the lessee. Additional bonds to the extent of \$1,000,000 may be issued to the lessee against such excess payments, in which event there will be a corresponding increase in rental.

During construction of the new power plant, the proceeds of the Bonds and of the Preferred and Common Stocks will be deposited with the Trustee under the Mortgage, to be withdrawn only against certified construction expendi-

Senior Securities of GENERAL MOTORS

THE security market to-day offers few, if any, more attractive investments than the 7% and 6% Debenture Stocks of General Motors, the senior securities of the leading corporation in America's largest manufacturing industry.

Net Earnings for 1922, applicable to Debenture and Preferred dividends, amounted to \$51,496,135, or 8 times dividend requirements. For first quarter of 1923, earnings are estimated to exceed \$18,500,000 or 111/2 times such dividends. Net Tangible Assets amount to \$350 per share of Debenture and Preferred Stocks.

Net Sales for 1922 amounted to \$463,706,733, including 456,763 cars, trucks and tractors. In the first quarter of 1923 sales of cars and trucks totaled 173,622, the largest quarter's business in the Company's history.

These securities have no bonded debt ahead of them.

We strongly recommend these Stocks as excellent securities for permanent investment. They are listed on the New York Stock Exchange and are now selling at prices to yield nearly 7%.

Southern Minnesota Joint Stock Land Bank

5% Farm Loan Bonds

Dated May 1, 1923

Due May 1, 1953

Principal and interest payable at the Southern Minnesota Joint Stock Land Bank, Redwood Falls, Minnesota; at the office of Dillon, Read & Co., and at the Chase National Bank in New York City; or at The Northern Trust Company, Chicago, Illinois. Interest payable May 1 and November 1. Coupon and fully registered bonds, interchangeable. Denominations \$1,000 and \$10,000. Redeemable as a whole, or in part by lot May 1, 1933, or on any interest date thereafter at 100 and interest.

The Act of Congress, known as the Federal Farm Loan Act, under which the above bonds are issued, provides that Joint Stock Land Bank bonds shall be deemed and held to be instrumentalities of the Government of the United States and that they shall be a lawful investment for all fiduciary and trust funds under the jurisdiction of the Federal Government, and may be accepted as security for all public deposits.

A decision of the Supreme Court of the United States rendered February 28, 1921, fully sustains the constitutionality of this Act and the tax exemption features of these Joint Stock Land Bank Bonds.

We offer these bonds when, as and if issued and received by us. It is expected that Interim Certificates of the Southern Minnesota Joint Stock Land Bank will be ready for delivery on or about May 1, 1923.

Price 103 and accrued interest To net about 65%% to optional date and 5% thereafter to redemption Further information is contained in our circular which may be had on request

inations: \$1,000 and \$500 bonds in all maturities; \$100 bonds in last maturity only.

Purpose of Financing:

The company operates roofing and paint plants at York, Pa.; Niagara Falls, N. Y.; Marseilles, Ill.; East St. Louis, Ill.; Richmond, Cal.; St. Louis, Mo.; linoleum and oilcloth plants at Philadelphia, Pa. and Trenton, N. J.; gypsum plants at Acme, Tex.; Acme, Okla.; Acme, New Mex.; Grand Rapids, Mich.; Laramie, Wyo.; Cement, Okla.; Gypsum, Ore.

Certain-teed Products Corporation, already the largest prepared roofing manufacturers in the world, thus takes a further step in its policy of steady expansion toward a complete and fully diversified unit in the production of high quality building products. These large additions to its present manufacturing facilities and administrative organization mean the completion of its line of products for the construction, protection and equipment of buildings, and for the distribution of these closely related necessities through the same channels, eliminating all avoidable waste.

History of Business:

THE business was founded in 1904 and has a record of steady expansion and growth until it now covers the United States and extends into many foreign lands. For nineteen successive years the company has shown a profit each year, even during the trying times of 1920 and 1921 when many industrial corporations showed losses.

It is important to note that the company's business is not dependent on new building or building oms, since a very large portion of its sales are for purposes of rehabilitation, repairs and replacements.

MESSRS. Ford, Bacon & Davis and Messrs. George W. Goethals & Co. have appraised the sound value of the company's fixed assets as of approximately March 31, 1923, at \$17,092,327, equivalent to \$2136 per \$1000 bond. Net tangible assets are equivalent to \$2765 per \$1000 bond.

Assets and Earnings:

The average net profits after depreciation and depletion, but before interest and taxes for the five years ended December 31, 1922, as certified in part by Marwick, Mitchell & Co., and in part by Barrow, Wade, Guthrie & Co., are equivalent to 2.9 times the greatest annual interest charges on these bonds. Earnings during the last 18 months are greatly in excess of this ratio.

The company deals only in the manufacture of basic necessities in the building industry essential to the everyday life of all communities.

Legality of the issue will be approved and the trust mortgage and bonds will be drawn by Mr. Nicholas R. Jones and Messrs. White & Case for S. W. Straus & Co., Incorporated, and the trustee; and Messrs. Cravath, Henderson, Leffingwell & de Gersdorff for the issuing corporation. Title to the properties will be approved by local counsel under the direction of the foregoing attorneys. We have purchased these bonds after careful investigation and offer them with our full recommendation as a safe investment for sums of any amount.

Bonds Designed for the Investor

THE Federal Farm Loan Act was designed "to provide for the agricultural development of the United States" by establishing a source of credit to meet the needs of agriculture.

The Act gives full consideration to the fact that a large, steady volume of capital could only be obtained through the creation of standard forms of investment which, by exceptional merit, would take an impregnable position in the opinion of the investing public.

Thus the JOINT STOCK LAND BANK Bonds were created, specifically adapted to the requirements of the American investor from European rural credit obligations which have passed, with a flawless record, through the severest tests that the past century and a half could impose.

The four-fold combination of safety, return, marketability and exemption from all taxation except inheritance taxes is presented in the JOINT STOCK LAND BANK Bonds. For this reason, they appeal strongly to those whose investments were formerly confined to municipal obligations, selected mortgages and corporation bonds of the highest grade.

We have given particular attention to the JOINT STOCK LAND BANK Bonds from the investor's standpoint, and offer several selected issues at prices yielding from 4.60% to 4.70% to their optional maturity, and 5% and 51/2% thereafter.

JOINT STOCK LAND BANK BONDS The Origin, Security and Safeguards of the 9 JOINT STOCK LAND BANK Bonds are fully described in our new booklet, which will be mailed you upon request for Booklet JS-18.

How one father provided for his daughter

His will provides that one third of his estate shall be held by us in trust for his daughter. The income is to be spent in her support and education under the direction of the mother should she survive; if not, then at our discretion.

When she marries we are authorized to buy and give her a home of her own choosing not to exceed a certain cost. At age thirty she is to receive outright one third of the Trust Fund as it then stands. The income from the remaining two thirds is to be paid her for life, and she is given the right to provide by her own will where the principal shall go upon her death.

By naming a permanent, experienced, and capable company as executor and trustee, he has assured the carrying out of his plans for this child.

FROM now on the tendency in interest rates will be downward, and for this reason the 7% bonds we offer should be bought NOW, while this higher income yield is available.

As your natural inclination is to be assured that your money be safely invested-we strongly urge you to purchase the bonds of the Gladstone Court Apartments, a new, exceptionally well secured issue of \$250,000 7% First Mortgage Bonds. Your valued order will be received subject to prior sale.

A YOUNG WOMAN GOOD EDUCATION.
22 TO 25 YEARS OF AGE.
A very good position in the advertising department of a large newspaper is awaiting a substantial young woman, preferably a college graduate, whose major subjects should be of help to her in advertising sales work. However this training is not essential. This position will not pay a large starting salary, but after you have received a thorough training and de-velop your sales ability your earnings should be larger than those of the average secretary.

The work is interesting—not monotonous—neither is it difficult. Every assistance will be given to enable you to make a success of the work. To qualify you should be attractive,

William E. Dever Is Inaugurated Mayor as Chicago's People Pack Council Chamber and Galleries

COUNCIL CHAMBER IS PACKED AS WILLIAM E. DEVER IS INAUGURATED MAYOR. Men and women distinguished in the business and political life of Chicago filled the council chamber and galleries to capacity last night to witness the impressive ceremonies which placed Mayor Dever at the city's helm. Those on the rostrum were: (1) James T. Igoe, retiring city clerk; (2) Carter H. Harrison, former mayor; (3) George Brennan; (4) Samuel Ettelson, retiring corporation counsel; (5) Edward F. Dunne, former mayor and governor; (6) John A. Cervenka, new city treasurer; (7) Mrs. William H. Sexton; (13) Col. A. A. Sprague; (14) Prof. Charles E. Merriam; (15) Clayton F. Smith.

MAYOR DEVER TAKES THE OATH OF OFFICE. Former City Clerk Igoe is shown administering the oath to Chicago's new leader for the coming four years. Former Mayor Thompson is at Mayor Dever's left. The retiring executive read a brief farewell message prior to the administration of the oath to Mayor Dever.

FOUR MAYORS ATTEND INAUGURAL CEREMONY. Among those on the rostrum last night were: (1) Ex-Mayor Carter H. Harrison; (2) Ex-Mayor Edward F. Dunne; (3) Ex-Mayor William Hale Thompson and (4) Mayor Dever. It was the first time in the history of the city at which a quartet of mayors sat in one group.

Savagery Ends U. S. Takes Hold

BY ARTHUR SEARS HENNI PORT AU PRINCE, April 1.—It would know what it means for U Sam to take up the white man's den come to Haiti and observed first land in the western hemisp settled by Europeans emerging u American guidance from 400 year bloodshed, degradation and miser You will gain a new conception the duty of the United States to

You will gain a new conception the duty of the United States to tect its frontiers and discharge implied responsibility conferred the Monroe Doctrine as well as to lift the backward peoples at our doors. Disease Wiped Out.

In eight years a bountifully pretive country impoverished by opsion, made infamous by succesreigns of terror and revolutions atted by frightful savagery and shur as a pest hole of the most dreaded cases has been completely tranquilcleaned up, placed on its feet finanity, and embarked upon a period promising economic development. In eight years the United States won the respect and confidence of Haltian people to such a degree opposition to the American oction is now confined to a few polileaders opposed to the administra of President Borno, who has a bimself popular with the masses.

Members of Secretary of the 1 Denby's party touring the West dies have been deeply impressed the achievements of the cooperabetween the American and Hal governments, and none is more thusiastic than those Democratic ators and representatives whose p customarily has assalled intervenas stark imperialism.

Wilson Started Work.

President Wilson intervened in H in 1915 after the butchery of Predent Guillaume Sam at a momentum when it was necessary to protect American and foreign lives and presty from insurrection or leave it responsibility to European powers, the expense of infringement of Monroe Doctrine. The French afrea had landed marines for protective process, but withdrew their forces soon as the American marines car ashore.

Haiti has been rescued from solvency and made a going conce with modern institutions being eveloped at negligible cost to the Unit States and at less cost to the Haiti people than their former primitistate of government reeking with grand corruption.

Paying Debts Now, Too. The \$16,000,000 debt to France h

been paid off, at a saving of \$10,000
000 in exchange, from the proceeds of
a loan by American bankers which with
be liquidated from customs and internal revenue. This one stroke ha
removed ground for European interference.

President Borno and the America bigh commissioner, Gen. Russell of the marine corps, are now at work on proposed reorganization of the national finances designed to produce more revenue and at the same time lighter the burden of taxation borne by the masses.

The greater part of the national in come is derived from an export to of 3 cents a pound on coffee of whice 60,000,000 pounds are produced an nually. In operation this export dut has proved to be a tax paid by the peasants who are coffee growers. But President Borno and Gen. Russell are in favor of abolishing the coffee esport tax and the problem presented its find substitutes that will product the production of the coffee esport tax and the problem presented its find substitutes that will production to the production of the pro
